Exploratory Data Analysis	Data Visualisation	Data Cleaning
Statistical Analysis	Programming Skills (Python)	NumPy
Pandas	Matplotlib	Seaborn
Git / GitHub	Microsoft Power BI	Excel & Spreadsheet
SQL and Database Management	Tableau	

ACADEMIC QUALIFICATIONS

MBA - Information Technology Management

Jain University
Bengaluru, KA
2024

- *Completed the degree program with a score of 76.41%.*

Bachelor of Commerce - Honours

Ajeenkya DY Patil University
Pune, MH
2022

- *Graduated with a distinguished score of 80.41%.*

High School Senior - CBSE

Mallikarjun School
Pithoragarh, UK
2019

- *Achieved a cumulative score of 64.41%.*

ACCREDITATIONS

Google Data Analytics

Coursera

- Prepare Data for Exploration.
- Process Data from Dirty to Clean.
- Share Data Through the Art of Visualization.

Microsoft Power BI

Udemy

- Build professional-quality business intelligence reports.
- Blend and transform raw data into beautiful interactive visuals & dashboards.

SQL - MySQL for Data Analytics

Udemy

- Create, design, and operate with SQL databases.
- The ability to take control of your dataset – insert, update, and delete records from your database.

Excel Pivot Tables

Udemy

- Transform raw data into insightful and interactive visualizations and dashboards using Excel.
- Leverage Excel to convert raw data into compelling interactive visuals and dashboards.

Verbal Commands

- English
- Hindi

PERSONAL ENDEAVORS

Sales Analysis

A comprehensive data analysis project utilizing the "Adventure Works" dataset from Microsoft. This project leverages **SQL** for data querying and **Power BI** for insightful data visualization and reporting.

🔗 *Explore the project on GitHub.*

Olympic Games

An analytical project exploring data from the Olympic Games, providing insights across various sports. This project employs **SQL** for data extraction and **Power BI** for dynamic visualization and reporting.

🔗 *Explore the project on GitHub.*

Stock Market

A data analysis and visualization project focused on the stock market, utilizing **Pandas** for data manipulation and **Tableau** for interactive visual representation.

🔗 *Explore the project on GitHub.*

Google Play Store

A data analysis and visualization project focused on the stock market, utilizing **Pandas** for data manipulation and **Tableau** for interactive visual representation.
